There is no pain or discomfort when Tabler's Buckeye Pile Ointment is used. It relieves the itching increased by scratching. It is prepared with scientific accuracy and professional knowledge, and it is the kind that cures blind, bleeding, itching and protruding piles with no pain or loss of time. W. E. Price.

The News office rather knocks them all out on sale bills, horse bills and fine job printing. We would like to have the farmers compare our sale bills with those printed at other offices. We not only have the type and material, but we get in the artistic touches cross roads printers do not possess. There are lots of better printers than we in the printing business and some of them may be George Washington's, but the farmer who wants a sale bill or jack diploma does not care for patriotism, morality or the sunbeam sort of christianity. He wants good, wholesome artistic work in clear type, white paper good ink and skillfully displayed. And that's the sort of work we do at the News office.

The Greatest Discovery Yet.

W. M. Repine, editor Tiskilwa, Ill., "Chief," says: "We won't keep house without Dr. King's New Discovery for consumption, coughs and colds. Experimented with many others, but never got the true remedy until we used Dr. King's New Discovery. No other remedy can take its place in our home, as in it we have a certain and sure cure for coughs, colds, whooping cough, etc." It is idle to experiment with other remedies, even if they are urged on you as just as good as Dr. King's New Discovery. They are not as good, because this remedy has a record of cures and besides is guaranteed. It never fails to satisfy. Trial bottles free at A. R. Kane's drug store.

Judge Skidmore is giving the usual amount of first class satisfaction this term of court. Judge Skidmore has no peers on the bench and but few equals. He is always fair in his rulings and the onlooker can easily see that politics cut no figure with him.

John McKillop, who is running for district clerk, is going to make it very interesting for his opponent, we believe. Johnny is competent, jolly, a good mixer and all round good fellow, and if he should be fortunate enough to get the office we don't believe his head will swell.

J. L. Suppe, Galena's second hand man, was found guilty in the district court the other day of receiving stolen goods. The penalty is not more than five years in the penitentiary and Suppe, who is at present in the soup, will ask for a new trial, and failing in that will appeal the case to the supreme court.

It is not what a manufacturer says about his own medicine that cures a patient, but what the medicine does. Ballard's Horehound Syrup does the work and does it well. It cures coughs and colds in a day. It's healing, soothing and quieting. 25c and 50c. W. E. Price.

Miss Ada Lacy has on exhibition in Price's drug store a few pieces of her beautiful china paintings. We are pleased to learn that she has concluded to organize a class in Baxter. Miss Lacy has devoted several years to art and has received instructions from some of the best teachers in the East. Last year she taught a large class in Pittsburg. She has a large kiln for finishing her china which saves much expense.

Dent's Cash Grocery is paying the very highest market prices for poultry.

The first question a man asks when he sees a girl flirting is whether she is respectable or not; it raises a doubt at once. This being the case, no modest girl can afford to indulge in the pastime. When the dawn is brushed from a peach its beauty is so marred it can never be restored, and when a young girl throws lightly aside that sweet and modest reserve no becoming to a maiden, and which so elevates her and enables her to command the respect of all, she loses her great charm, and becomes rather cheap and common, to use no rash terms. Flirting may seem to the giddy and thoughtless girl wonderfully amusing, and she may get the idea that she is fascinating, but it is a most degrading thing, and should be frowned upon by every young lady who has an ambition to become a worthy and charming young woman.—Maquon (Ill.) Breeze.

During the past few weeks we have had several inquiries concerning Oswego College at Oswego, Kansas, and the time of its opening. We are officially authorized to say the college will open in two weeks with the full number of experienced professors and teachers in its faculty, and with brighter prospects for a large number of students, and a more successful year than ever before. The department of music, voice, language, preparatory, science, art and elocution will be especially strong and worthy of the fullest confidence. The expense for students of Kansas will be much less than for the same advantages at schools located farther away than Oswego, because \$300 will pay for tuition, board, light, laundry, heat, etc., in this college; whereas nearly double that amount will be spent if a daughter is sent to school in which the students come from wealthy homes and large cities. Oswego College is located on high table land, 100 feet above the beautiful Neosho river, and not a single student left last year on account of ill health.

A Clever Trick.

It certainly looks like it, but there is really no trick about it. Anybody can try it who has lame back and weak kidneys, malaria or nervous troubles. We mean he can cure himself right away by taking Electric Bitters. This medicine tones up the whole system, acts as a stimulant to the liver and kidneys, is a blood purifier and nerve tonic. It cures constipation, headache, fainting spells, sleeplessness and melancholy. It is purely vegetable, a mild laxative, and restores the system to its natural vigor. Try Electric Bitters and be convinced that they are a miracle worker. Every bottle is guaranteed. Only 50c a bottle at A. R. Kane's drug store.
